Tell the busy world to take a hike.

Get away to the Greenway.

Nestled amid beautiful lakes and hardwood forests, the Anne Springs Close Greenway is a natural preserve more than twice the size of Central Park, minutes south of Charlotte. Its 2,100 acres serve as a natural buffer from urban development and provide a wide open space for countless activities – from hiking, biking and horseback riding to picnics, kayaking and more.

The land has ties to the Catawba Indians and the Civil War and has been permanently preserved for public use. The children of Anne Springs Close donated the land in honor of

her lifelong commitment to recreation and the environment to provide a natural landscape for the community to enjoy. The Greenway contains native plants and animals, historic buildings, a network of trails, a recreation center and facilities for weddings and other special events. As a non-profit organization, we depend on memberships and your generous support.

Mission:
 Provide stewardship to protect the cultural, ecological and scenic features of the land, while offering recreational and educational opportunities that promote the health and wellness of the community.
